

J&M Crane & Transport Ltd

24 Hour Crane & Transport Services

Company Portfolio.

Customers first, safety always.

A little bit about us.

Welcome to J&M Crane & Transport Ltd, a leading Crane Hire, Contract Lift and plant handling Company in the South of England.

We are a family owned and run business who has been supplying a service to the crane and haulage industry since the mid 1950's. Strategically placed in Gravesend, Kent, we are ideally located to service the South of England including London with good access to the M25 and motorway network. We often travel further afield for larger projects and more long term jobs.

Here at J&M, we pride ourselves on running a fleet of Mobile Cranes and Lorries which are as modern and as energy efficient as possible. Along with employing some of the latest technology within the industry, we thrive on ensuring our clients get the safest and most effective way of completing their project.

Customers first, safety always.

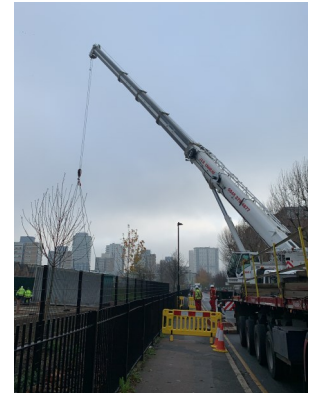

Why choose us?

When choosing J&M Crane and Transport Ltd to carry out your project, you can have piece of mind that you are in safe hands. Our fleet of Mobile Cranes, Lorry loaders and plant handling equipment are maintained to the highest standards and comply with all relevant legislations and service programmes.

Across the board, our team are highly experienced and trained to the latest requirements, with all of our operatives holding the relevant CPCs Qualifications. Our Appointed Persons are well experienced and kept up to date with the latest technology and equipment to ensure your project is carried out the best way possible.

Through our Crane, Transport and Plant handling divisions, we are able to offer you a full, one stop, turnkey solution. Just another reason why J&M can work for you.

All of the above are things are vigorously monitored by our ISO9001:2015 compliance manager, ensuring inspections, services and training is up to date, along with monitoring customer and supplier feedback.

Equipment.

Mobile Cranes

Here at J&M we have an large range of lifting capacity. Our mobile crane fleet includes all sizes including a versatile Kato CR350i City crane or a much larger GMK5250L 250ton capacity crane shown below.

Lorry Loaders

We are also proud to present a wide range of lorry loaders for all scopes of work.

Our lorry loaders range from a Cormac 65tpm to a Fassi2150 (215t) lorry loader that is one of the largest in the entirety of the UK, on par with 70t all terrain cranes. This is an ideal solution for low head room applications and when in close proximity of a railway

Previous projects.

Take a look at some of the projects we have undertaken and been involved with here at J&M. What you see here, is just part of the day to day service we provide across different sectors.

Please do not hesitate to contact us for references.

Sandwich Toll Bridge

We were tasked, with the lifting out of the Sandwich Toll bridge for repair works, and lifting it back into place once the works were complete. We supplied a Liebherr LTM1500-8.1 to lift the bridge out, along with the transport of the bridge to its repair location. We unloaded the bridge using an ATF130G-5 and Grove GMK5150L. Project was completed safely, smoothly and on time, leaving a very satisfied client.

J&M were asked to supply the crane and Contract Lift for the removal of the Faversham Swing Bridge. On the day, the bridge weighed another 10te due to ballast which had not been accounted for. We supplied a second ATF130G-5 to aid the main crane to lift the bridge out. A great response time with the second crane left a very happy customer.

A21 Culvert Placing

J&M Provided the full lifting package for the removal and placing of the new culverts for an underpass on the A21 near Tonbridge. This included the supply of a Liebherr LTM1500-8.1 to place each 14te Culvert, a Tadano ATF130G-5 slave and site crane, along with other lifting projects including the supply of a spider crane. The above was supplied across a 72 Hour Shift.

Canary Wharf Christmas Trees

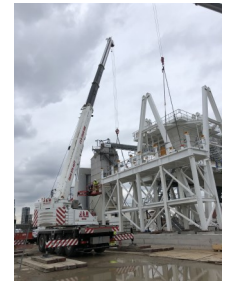

For consecutive years J&M have supplied the crane and traffic management for lifting in the Christmas trees at Cabot Square in Canary Wharf.

Kings Cross—Various Works

We supplied various cranes ranging from Tadano ATF70G-4's, up to Grove GMK5150L, for the lifting of materials to roof levels of different new buildings. This was a great project to be involved with, dealing with tight site constraints.

Concrete Plants

J&M have supplied the lifting for various Concrete plants, including the complete crange package for over 2 years on one of the Largest Concrete Batching Plants in Europe, located in Greenwich. We supplied everything from Lorry loaders and city cranes up to a Grove GMK5150L.
